

Tatarian Maple “Hot Wings” *Acer tataricum*

Mature Size (H x W) (20x20)

Tree Shape: Rounded, spreading

Growth Rate: Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints: Red-winged seeds in summer, very ornamental. Orange-red fall color.

Japanese Tree Lilac “Ivory Silk”

Syringa reticulata 'Ivory Silk'

Mature Size (H x W)
(20x15)

Tree Shape: Rounded

Growth Rate: Slow

Soil Moisture: Moderate

Aesthetic Value and

Cultural Hints: The Ivory Silk Lilac tree is a beautiful deciduous tree. Flowers set in late spring and are creamy white and very fragrant. Grows to a height of 20-25 feet with a

rounded crown. Reddish-brown bark is also an attractive feature of this tree. Likes sun. Low maintenance tree.

Autumn Brilliance Serviceberry

Amelanchier x grandiflora

'Autumn Brilliance'

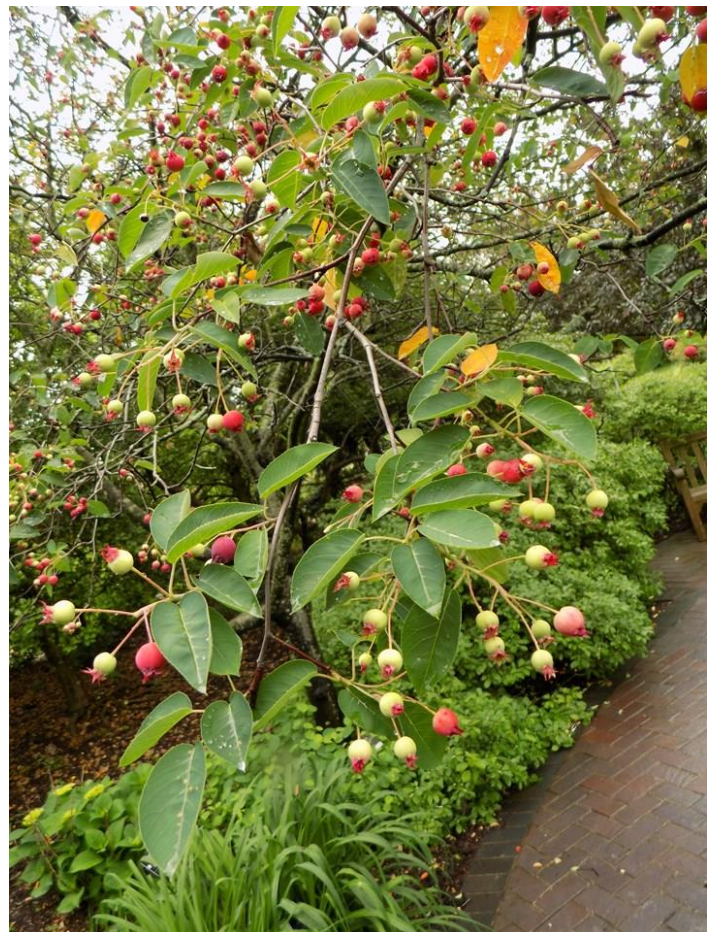

Mature Size (H x W) (20x20)

Tree Shape: Spreading to Vase Shape

Growth Rate: Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints: It has spectacular white flowers, edible fruit that attracts birds, and brilliant red fall color. Full sun to part shade. This serviceberry tolerates partial shade and is disease-resistant.

Purple Catalpa

Catalpa x erubescens 'Purpurea'

Mature Size (H x W) (40x35)

Tree Shape: Round

Growth Rate: Moderate

Soil Moisture Moderate

Aesthetic Value and Cultural Hints:

Leaves out in the Spring with beautiful deep purple leaves that unfurl to a huge size. Large panicles of yellow and purple-spotted white flowers crown the canopy in late spring/Early Summer as the foliage begins its transition to bronze-green summer color. Introduced 1886 by T. Meehan's nursery in Germantown, PA, originated in France in 1866.

Sterling Sliver Linden

Tilia tomentosa 'Sterling'

Mature Size (H x W) (50x30)

Tree Shape: Rounded

Growth Rate: Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural

Hints: Excellent urban adaptability and drought tolerant. This tree is very tolerant to high pH soil. Silver linden is a great shade tree with a silver color under the leaves. In the wind this silver shines giving a wonderful effect. Has a yellow fall color and pale-yellow flowers in June that are fragrant!

Accolade Elm

Ulmus 'Morton' ACCOLADE

Mature Size (H x W) (55x40)

Tree Shape: Vase

Growth Rate: Moderate/Fast

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints:

Arching limbs and a graceful vase shape characterize this outstanding hybrid elm selected and tested at Morton Arboretum. Glossy dark green foliage changes to yellow in the fall and is resistant to elm leaf beetle feeding. Growth habit gives good form in the nursery and an ultimate form like the American Elm.

Blue Satin Rose of Sharon

Hibiscus syriacus 'Marina' **BLUE SATIN**

Mature Size (H x W) (10x6)

Tree Shape: Rounded

Growth Rate: Slow-Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints:

Seedless Rose-of-Sharon with large, single blue flowers. This easy-to-grow plant adds unusual color to the summer landscape, making a colorful addition to perennial borders and mixed beds, and a stunning specimen plant in gardens. Plant in full sun and watch the pollinators come!

John Pair Sugar Maple

Acer saccharum 'John Pair'

Mature Size (H x W) (30x30)

Tree Shape: Rounded

Growth Rate: Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints:

This tough and versatile sugar maple of small stature delivers rich green summer foliage and bright fall color. Selected as an outstanding performer from a Caddo County, Oklahoma seed source by Dr. John Pair of Kansas State University, it thrives in areas where heat, cold, drought and drying winds are the norm. Don't plant along roads as prone to salt damage. Will bleed if pruned in late winter or spring.

Briotti Red Horse Chestnut

Aesculus × carnea 'Briotii'

Mature Size (H x W) (30x30)

Tree Shape: Rounded

Growth Rate: Slow

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints:

Plant in full sun to part shade. Does best in consistent moisture of a lawn. Produces beautiful 5-6" long red flowers in late spring/early summer. It is a hybrid between a red buckeye from North America and a horse chestnut from Europe. It was cultivated in the 1800's by a Frenchman.

Kentucky Coffeetree ‘Decaf’ *Gymnocladus dioica*

Mature Size (H x W) (45x35)

Tree Shape: Variable

Growth Rate: Moderate

Soil Moisture: Low

Aesthetic Value and Cultural Hints:

Seedless male cultivar. Interesting winter form. Yellow fall color. Drought tolerant. Decaf Kentucky Coffeetree exhibits much better branching than the species

Crimson Spire Oak

Quercus x bimundorum
'Crimschmidt'

Mature Size (H x W) (45x15)

Tree Shape: Columnar

Growth Rate: Moderate

Soil Moisture: Moderate

Aesthetic Value and Cultural Hints: Hybrid oak of white and English. Dark green to slight bluish tint leaves turn rusty red in fall. Drought tolerant and adaptable. Holds brown leaves through winter providing screening till next leaves emerge.
