

# 2025 Proposed Thornton Water Rates

Like many cities across the country, Thornton continues to see increases in the cost of maintaining, expanding, and improving our water system. To continue providing our community with clean, reliable drinking water, Thornton City Council is considering implementing a water rate increase for all customers that would be effective **Jan. 1, 2025**.

## How will the changes affect my monthly bill?

The table below shows the water bills of a typical Thornton single-family residential water user on a 7,000-square-foot lot. Calculations are based on typical monthly water use of 4.25 kgal in winter and 12 kgal in summer. Individual bills are determined based on actual monthly usage.

	Today		Proposed Starting 1/1/25	
	Customer Type	Typical Winter Bill	Typical Summer Bill	Typical Winter Bill
Inside City Residential Customer	\$34.10	\$84.50	\$37.88	\$93.88

## Factors That Influence Water Rates

-  Inflation
-  PFAS mitigation
-  Water system maintenance
-  Infrastructure investments

Find out more about water rates and our Water Assistance Program for income-qualified customers at [gocot.net/billing](http://gocot.net/billing) or reach out to us at [UtilBilling@thorntonco.gov](mailto:UtilBilling@thorntonco.gov), or call 303-538-7370.

## Ways to Save

There are many effective strategies for reducing water use and lowering your water bill. [ThorntonWater.com](http://ThorntonWater.com) provides a wealth of information about saving water both indoors and outdoors through opportunities such as:

-  Sprinkler system consultations
-  Water-wise landscape rebates
-  Garden-In-A-Box discounts
-  Lawn removal discounts
-  Irrigation controller & rain sensor rebates
-  Toilet rebates
