

SOUND PERMIT APPLICATION

Since citizens live in close proximity to each other and noise sensitivity can be an issue, sound permits are no longer issued in residential areas. However, please be aware that the City regulates unreasonable noise, pursuant to Section 38-441 of the Thornton City Code (Code), which is attached.

Sound permits may be obtained if you plan on having amplified sound in connection with an event at a City park or any commercially-zoned location within the City.

Monitoring Requirements:

Commercially-Zoned Location

Applicants must attach written documentation to their application that a person certified to use noise metering equipment will be present during the event to measure noise output and to ensure compliance with the noise level standards contained in Section 38-441(c), Table A, of the Code.

City Parks

Applicants must comply with City Code Section 38-441, however, written documentation that a person certified to use noise metering equipment isn't necessary.

You may fill out an application online and email it to clerk@thorntonco.gov or mail it to Thornton City Clerk's Office, 9500 Civic Center Drive, Thornton, CO 80229. If you have questions, please call 303-538-7230.
