Detention Pond at Work!

This feature is a Detention Pond and is working hard to treat stormwater runoff before it enters our local water bodies. Water coming into this pond is slowly released over a 2-3 day period allowing pollutants to settle out and be left behind. For this reason, it is important to keep people and animals out of the pond as water can rise quickly when it rains.

To learn more about the process, please scan the QR code.

CITY OF THORNTON

For the public's safety, please do not enter the Detention Pond at any time.
