

Weekly Update  
November 20, 2020

1. Last Saturday, November 14, we lost one of our colleagues, **Chris Swinhart—PGA Golf Professional at Thorncreek Golf Course**. He is remembered in many ways by the golfing community as a person who accomplished much and brought our one golf course to a very high level of operations and service. As a tribute to Chris, several staff played a round of golf, enjoying the great weather on Wednesday at Thorncreek Golf Course. (see photo on last page)
2. The planned **Tree Lighting Ceremony for Friday, December 11 has been cancelled due to the COVID safety guidelines in place**. In its place we will still offer community cheer by having the Carpenter Recreation Center specially lit as a drive by destination to lift all of our spirits, starting next week through the first week in January. This will be a “Bright Spot” in Thornton—literally, to go visit.
3. Being on RED on the new COVID Dial, we are very restricted on what we can offer the community. The **recreation centers remain closed, with virtual programming, curbside meals, and wellness calls to our vulnerable populations still ongoing**. Staff are also available at all the centers to take **phone calls during business hours of 8 a.m.-5 p.m.** We do look forward to being back open again soon.
4. For an informative and good read, please visit the attached link to our new **TPRCP Magazine**. <https://online.flipbuilder.com/rthb/vvys/>
5. Due to the holiday next week, this update will return on Friday, December 4. We wish the community, our patrons and all connected to us through social media and other means, a **Happy Thanksgiving**.
