

DELOSPERMA NUBIGENUM YELLOW HARDY ICE PLANT

Succulent lime green foliage is covered with a carpet of small yellow flowers in the spring. This low lying ground cover spreads quickly, plant in the garden where it will creep inbetween and over rocks. Prefers gravely unimproved soils, low water once established, full sun. Don't crowd with mulch or it will not be able to spread. Height 2-3" Spread 18"

USDA Zones: 4-7
