

Eryngium planum 'Blaukappe' Blue Cap Sea Holly

This unique perennial adds interest and texture to the water wise garden. The glowing blue flowers rising from dense clumps of foliage are a great accompaniment to yellow neighbors (as seen in the blue and yellow section of the garden). Tolerates hot, dry conditions, but need regular water until established. Does well in many soils, including high salinity. Plant in full sun. Height 24" Spread 12-15"

USDA Zones 2-9
