

STACHYS BYZANTIUM

SILVER CARPET LAMB'S EAR

The fuzzy silver leaves of this plant create a great border in dry land pallets. Use to line a path or as a ground cover mingled with native grasses and salvia. Water regularly the first year in order to establish a healthy root system, then only occasionally. Prefers dry, well drained soil in full sun. Drought, heat, and humidity resistant. Height 9-12" Spread 10-12"

USDA Zones: 4-9
