

# Penstemon pinifolius 'Mersea Yellow' Yellow Pineleaf Penstemon

A rare color variant in the Penstemon genus. Abundant bright yellow blooms cover the delicate stems in mid-summer. Spreading clumps of small narrow dark green leaves make this a pleasing plant even when out of bloom. Proven to be as vigorous and drought tolerant as common Pineleaf Penstemon. Enjoys well-drained soil, very low water and full sun. Height 6-8" Spread 12-15"

USDA Zones 4-9
