

RUDBECKIA HIRTA 'DENVER DAISY'

This short lived perennial has a high impact in the garden. The mid size strain produces large golden yellow daisies with a burgundy center. Each flower has its own unique charm, and is excellent for cut arrangements. Bred by Earnest Benary Seeds to commemorate the 150th anniversary of Denver. Fairly drought tolerant once established, does well in Colorado's clay soils, low to moderate water. Plant in full sun.

Height 18"-20" Spread 12"-18"

USDA Zones: 5-9
