

# SALVIA NEMOROSA 'BLUE QUEEN'

Salvias are one of the toughest plants you can add to your garden, they will thrive for many years on very little water once established. Spires of rich purple blooms are a favorite of bees and butterflies. Shear off spent flower heads for a second round later in the season. Very low water, tolerant of heat and most soils. Height 20-24"

Spread 18-22"

USDA Zones:3-9
