

SEDUM SPURIUM 'DRAGON'S BLOOD'

This fast growing succulent groundcover is a great addition to any xeric garden. It spreads around rocks and inbetween crevices providing year round interest. Dragon's Blood produces delicate hot pink flowers in the summer with leaves turning blood red in autumn. As with most sedums this plant is very tough and can withstand a variety of conditions living many years in your landscape. Partial to full sun, once established only needs occasional watering. Height 4-6" Spread 12-24"

USDA Zones: 3-9
