

Leucanthemum x superbum 'Alaska' Shasta Daisy

This popular daisy is great for borders and does well in Colorado's varied climates. Flowers are large creamy white daisies with a yellow eye. The showy blossoms are excellent for cutting. Keep the plants deadheaded and they will remain in full bloom from spring to fall. Plant in part shade to full sun. Tolerates a variety of soils including clay, acidic and loamy. Height 12"-20" Spread 12"-36"

USDA Zones 3-9
