

# ACHILLEA 'MOONSHINE' YARROW

The quintessential xeric plant: tough as nails and drought tolerant. Lacy silver-green foliage with large yellow corymbs. Looks great with French Lavender and Salvia. Divide clumps every 2-4 years in early spring. Only needs occasional watering once established. Deadhead spent flowers in the fall. Very low water, full sun, tolerates most soils. Height 20-24 Spread 18–24

USDA Zones: 3-9
