

## Mugo Pine

*Pinus mugo*

Height: 5'-20'  
Width: 5'-20'  
(At Maturity)  
Growth Rate: Slow  
USDA Zone: 3-7  
Bloom: None  
Sun: Full/Partial  
Water: Low

The upward sweeping, spreading branches of this shrub create a dense rounded crown. Mugo Pines can be variable in height and spread. There are many varieties and it is best to do your homework to determine which will fit the space you have. They have a nice dark green needles and can have a unique growth habit.

This is a wonderful cover plant for urban wildlife. They prefer moist well drained soils but are tolerant of dry, alkaline soils. You will find them planted through out landscapes in the metro area.
